# WE ARE THE FLOOR EXPERTS

**\_WE CREATE**  
**\_WE TEST**  
**\_WE PRODUCE**

From the beginning, we were guided by the idea to create products that will be perfect. Our goal was to create the perfect floor - one that combines the best features of ceramic tiles and the beauty and warmth of natural wood.

We have been creating, testing and improving our products for over 20 years. The Arbiton brand is the result of a titanic work of hundreds of people. Arbiton combines all our experience and guarantees high quality.

We know everything about vinyl floors. This is because we deal with the product from the very first drawing to the final testing.

---

Our A.design studio is responsible for unique decor patterns, inspired by the most beautiful varieties of wood from around the world. Engineers develop products that provide better and better technical parameters. Production Team and Quality Control ensures that our vinyl floors are the same, highest quality every single time. Our own laboratory is testing thousands of samples every year so we can offer you the best vinyl floor system on the market.

We know not only how to produce panels, but also how to install them and care for them. When you buy Arbiton floors, you will receive not only an excellent product with perfect technical parameters, but also a professional team of experts who take care of the after-sale service at every step.

# THE FLOOR FOR THE MODERN TIMES

## \_BEAUTIFUL AND PRACTICAL

Modern times become more and more hectic, full of challenges and responsibilities. We live fast, trying to make the most of every single moment. We are pushed to look for new solutions, technologies and clever ways to adjust items all around us to meet needs and expectations. With this in mind, **Arbiton HD Mineral Core®** floor was created. This floor impresses and surprises with practicality. Inspired by nature, vinyl floors are entirely designed by European A.Design Studio. Created for people just like you, who get the most out of each moment and enjoy the life to the fullest. The Arbiton floor design not only matches the latest trends, but also go ahead of times and creates them. Thanks to the timeless design its beauty will amaze you every day.

The pace of our life direct us towards solutions that will support and enhance us in everyday situations. That is why **Arbiton HD Mineral Core®** floors have been designed for their maximum comfort of use. Due to their advanced technical properties, they can be installed in any room without expansion joints between rooms. This allows to have beautiful, unified floor throughout the whole level of the apartment. With complete waterproofness and low thermal impedance they are perfect to fit in bathrooms with underfloor heating. They are easy to clean and antistatic, which prevents dust from adhering to them. Moreover, thanks to the innovative Titanium Nano Layer they are up to 30% more scratch resistant. All of these features and properties mean that you get a floor which will meet the demands of our time. With Arbiton floor you can enjoy life thanks to not only its beauty but also a peace of mind with guaranteed unique functional properties.

# BEAUTIFUL AS WOOD

WILIAMSBURG  
CA 114

## \_REAL WOOD STRUCTURE

Unique and realistic wood design selected from the most beautiful wood type in the world.

## \_WIDE BOARD

The widest plank available on the market - 229 mm - beautiful and the most natural looking floor.

## \_SOFT TOUCH

Soft, delicate and mat finished flooring - the best representation of a real wood.

## \_SILENT FLOOR

Nice and silent in everyday use vinyl flooring brings comfort and serenity to everyday life.

# PRACTICAL AS CERAMIC TILES

PASADENA OAK  
CL 107

## **\_DURABILITY+STRONGER LOCKING SYSTEM**

HD Mineral Core® primarily means extremely strong locking system which gives the whole flooring system a maximum durability. Despite of small thickness of the plank our locks are 2 times stronger than average LVT locks available on the market.

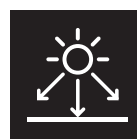

## **\_UNDERFLOOR HEATING**

Very low thermal resistance of our floors means more effective use of the underfloor heating system. Thanks to HD Mineral Core® less fuel is needed for floor heating and over 60% less carbon is released into the atmosphere from one household in Europe, each year.

## **\_WATERPROOF**

No need to be scared of water. Our floors are 100% waterproof. Frequent cleaning or spilled drinks are no longer dangerous to your floor. Without concerns you can connect your kitchen floor with the rest of your living space.

## **\_DIMENSIONAL STABILITY**

HD Mineral Core® also means high dimensional stability of the floor even in very sunny rooms. We offer at least 2 times higher dimensional stability of our floors in comparison to traditional LVT.

**DIMENSIONAL STABILITY**  
(EN ISO 23999) up to 0,05%

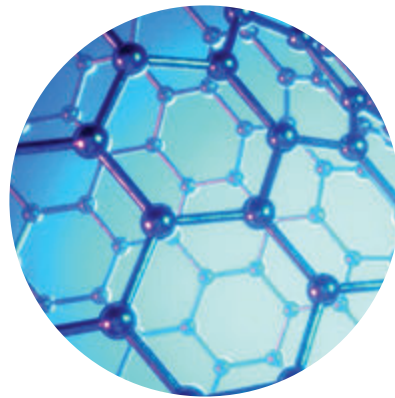

# HD MINERAL CORE<sup>®</sup> TECHNOLOGY

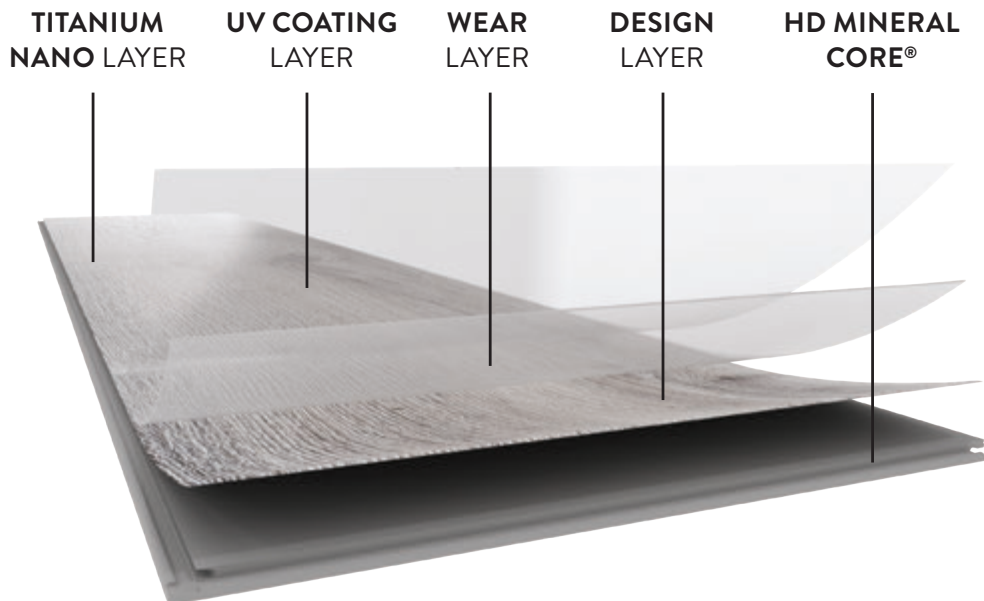

In our laboratories we've discovered an innovative combination of natural rock minerals and advanced polymers. Carefully combined proportions ensure maximum performance of the floor. Our HD Mineral Core® provides extreme durability which we confirm by giving you 20 year guarantee. We are proud of the quality of our products free of phthalates and harmful plasticizers.

**Hardness  
and durability  
of natural rock minerals**

**The flexibility  
of modern polymers based  
on carbon molecules**

# TITANIUM NANO LAYER

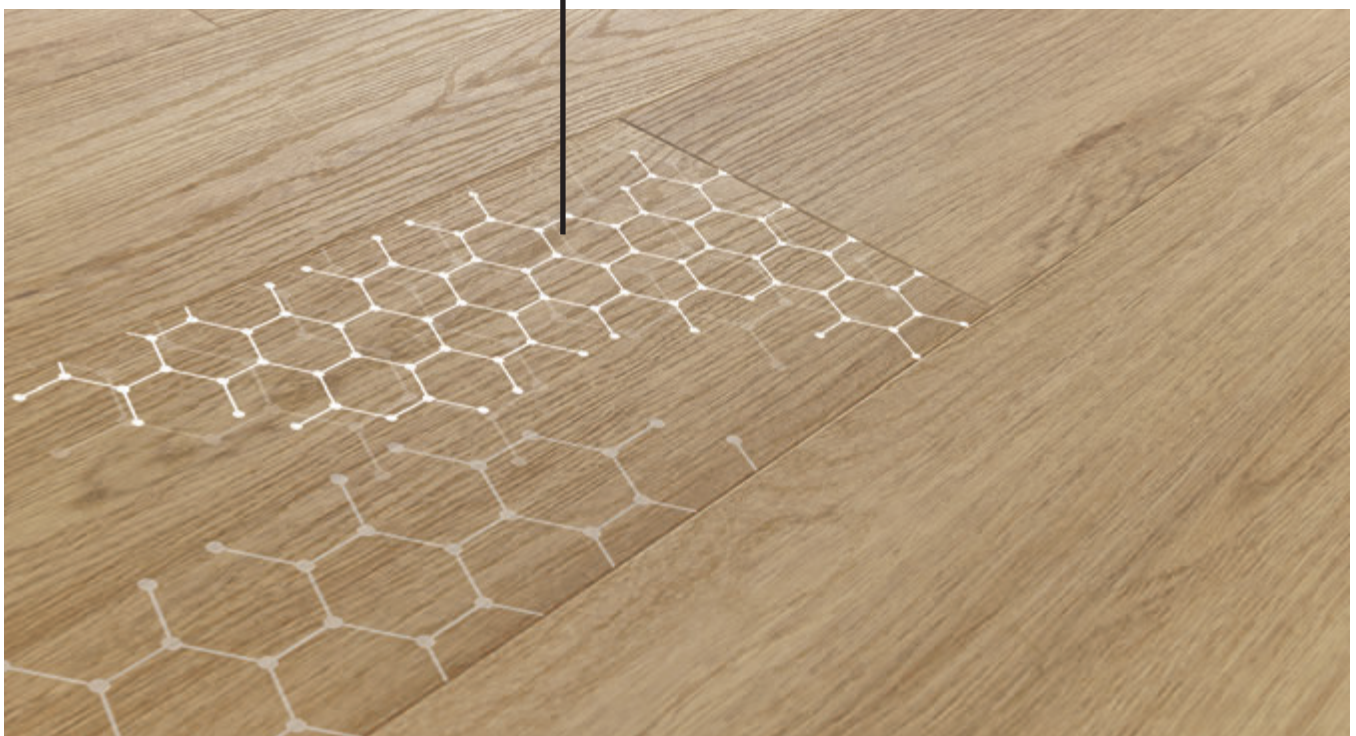

## What makes the floor durable?

The answer cannot be simpler: it should remain intact for years without visible wear and deterioration signs. To achieve that many technical parameters and features need to be considered that will affect the entire floor system. Different properties are essential for load resistance and different ones for compression. Strong locking system supported by well-matched underlay keep the panels in place. Water resistance is also a factor affecting longevity of the floor. On the one hand it protects from accidents like failure of a washing machine or water spillage but on the other hand it makes it easy to maintain clean. Scratch resistance is especially important from durability perspective. So far, it was a weak point of vinyl flooring in comparison to laminated floors. This time is over with the Titanium Nano Layer introduction.

**30%  
MORE  
RESISTANT SURFACE\***

\* test method according to EN1518

FLOOR WITH  
**TITANIUM NANO LAYER**

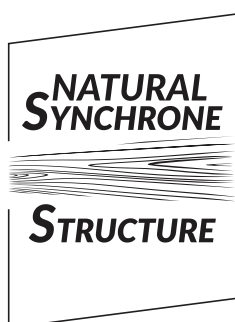

STANDARD  
**LVT**

For last couple of years, professional car workshops offer protection of a paint layer. For additional fee, we can protect the paint coating with specially selected cosmetics. This service is mostly done on the new car even before it has left the dealership. The factory lacquer coating is being covered with ceramic or nanoparticles coating. This offer satisfy the most demanding customers who want to enjoy the beautiful appearance of the car for years. Titanium Nano Layer is inspired by these premium automotive detailing process. Titanium Nano Layer protects the panels and secure them against micro scratches that can occur in the regular lifespan of use. The Titanium Nano Layer protective coating is available in the top Arbiton collections - Amaron and Liberal. Technology used in these collections outperform in durability and scratch-resistance tests the majority of vinyl panels on the market. As a result sand, earth or even mud are a danger no longer because of the Titanium Nano Layer and waterproofness. This means that Arbiton Amaron and Liberal can be easily installed in kitchens, dining rooms or even in bathrooms. And all these rooms can be unified – up to 200 m<sup>2</sup> without additional expansion joints. The combination of HD Mineral Core® and Titanium Nano Layer guarantees a beautiful floor for many years.

# NATURAL SYNCHRONE STRUCTURE

For those who appreciate super-realistic wood structure, perfectly synchronized with the decor, we have prepared an absolute novelty. NATURAL SYNCHRONE STRUCTURE - structure of the EIR type (embossed in register), the first of its kind in panels with a mineral core. Beautiful and delicate to the touch with a supermat surface, it will be perfect for large, spacious rooms with natural light. Available in the AMARON SUPERIORE collection.

# TOOLS FOR THE MODERN TIMES

Go to our website and the floor selection will become much easier. On our website we provide a free floor visualization tool. It is the fastest and most accurate floor visualizer in Europe. Without the need to download any app: just enter **arbiton.com**

**TAKE  
A PHOTO  
OF YOUR ROOM**

**CHOOSE  
FLOOR  
DESIGN**

**SEE  
IT LIVE!**

BEFORE / AFTER

BEFORE / AFTER

BEFORE / AFTER

All you need to do is to take a photo of the room and go to [www.arbiton.com](http://www.arbiton.com). Upload a photo and choose floors from a very wide set of decors and colors. The visualizer can be conveniently used with a mobile phone, without having to download any application first. The visualizer perfectly reproduces the issues of light, shadows, as well as the structure

of the room. It also recognizes objects on the floor, chair and table legs and other pieces of furniture that are part of the interior.

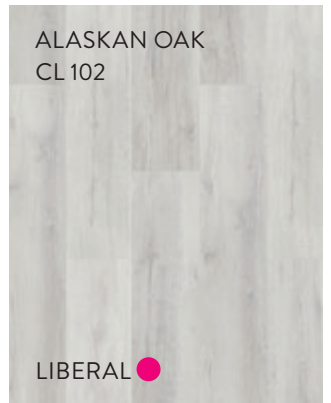

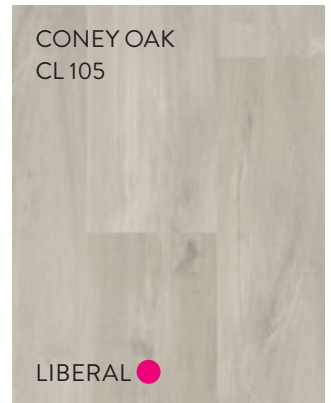

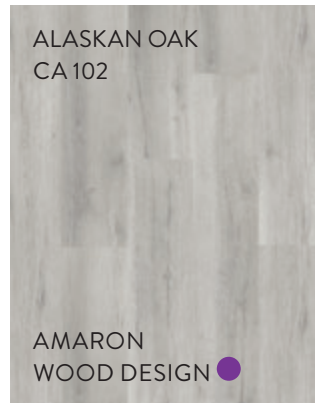

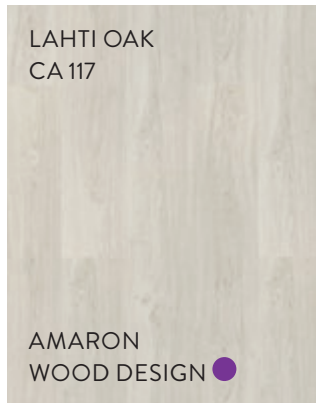

A real revolution already changing consumer behaviour in the construction segment.

# AMARON HERRINGBONE

Fashion passes- just to return later. Trends come and go but precious few hold on for a long time. Our Amaron Herringbone vinyl click floor is designed to belong to the latter group. Thanks to specially designed locking system this collection might be arranged in the iconic English herringbone pattern. This is an amazing way to adjunct traditional interior arrangements. The main element that indicates the direction of the interior style is the floor – any further decisions regarding the interior are based upon it. Furniture, textures, fabrics, accessories – all of those either correspond to the selected floor or stay in opposition on the basis of divergence. Regardless of which approach you choose, you can stay calm knowing that the Arbiton panels will secure you the highest quality.

# AMARON WOOD DESIGN

Amaron WOOD means expressive designs which will create the character of the interior. The floors in this collection have the highest usage class, created for the most demanding customers. This floor will play first fiddle. The 5G lock makes the floor easy and fast to install. A beautiful floor is a crucial element of interior design. It brings character to the unified design or lets you play a bit with contrast in modern or typically loft interiors. In any way, the floor is the element that helps to create an interesting space- where colours, textures and shapes result in the imagined effect- a sense of harmony and undisputed beauty. Having that in mind, we have created Amaron Wood vinyl click floor.

# XXL AMARON STONE DESIGN

Recently, interior designers tend to use solutions inspired by industrial, loft styles, strictly referring to, generally speaking, "urban spaces". This is a trend we have noticed for few years already, and most importantly, it brings really great projects. In most cases, main point of attention in those realisations is the selected range of vinyl flooring. Keeping this in mind, we have decided to create a collection of modern vinyl click panels in stone and concrete designs that are chosen the most and which would align with individual and business customers, professionally engaged in interior design.

# SKIRTING BOARDS

## COLOR MATCHED SKIRTING BOARDS - TORE

TORE is our new SOLID CORE skirtings created in a brand new technology giving it a 100% water resistance as well as a higher abrasion resistance. Due to the highly advanced technology of digital printing, we gained an unprecedented fidelity to raw materials at the surface of the skirtings, which now look like actual wood, stone or concrete. It allowed us for an ideal matching of the design of the skirtings.

With the multistep process of the production TORE gains an ideally matte surface. As a result, skirtings obtain a deep thread design enriching each interior and underlining its beauty. In addition to it, our product is environmentally friendly. The printing technology is based on using the VOC Free and solvent-free paints to guarantee neutrality for the environment. For colors match see page 60.

### WATERPROOF

CLEAN YOUR FLOOR WITHOUT ANY RISK – NON-DEFORMING, WATER RESISTANT BOARD!

### DEEP MATT SURFACE

THANKS TO TOTALLY NEW, MULTI-STEP PROCESS OF PRODUCTION WE GET A DEEP MATT SURFACE.

### PERFECT MATCH

# UNDERLAYS

## \_MULTIPROTEC VINYL CLICK

Special needs require special solutions. For areas with high level of traffic. Floors with click system require an underlay with high value of Compressive Strength. This is exactly what you can expect from our products. If the underfloor will be used do not worry you are covered – our products also perform well with underfloor heating thanks to the low value of thermal resistance. Additionally, Multiprotec products **have a Bfl-S1 fire class Bfl-S1 fire class.**

## \_SECURA VINYL CLICK

Products dedicated for vinyl floors with click system. Suitable for areas with high traffic level. High CS value improves the quality of the system and increases the durability of the floor. This product is very easy to install and align thanks to accordion form and cutting lines. High IS value - **(IS = 19dB)** for this XPS products allows for implementation in commercial areas where special parameters are required.

## \_MULTIPROTEC LVT FASTLAY HD

Underlay ideal for dryback floors. It can be used for quick renovation without interference in subsoil. Minimum subsoil preparation (eliminates minor unevenness) and much quicker glue assembly. Innovative self-adhesive layer allows corrections up to 10 minutes after floor installation. You do not need experience in fitting a to install the dryback floor on our fastlay mate. It is as easy as the click system. It is an ideal solution for do-it-yourself enthusiasts as well as for professionals thanks to high CS (500kPa) and DL (500 000 cycles) parameters.

# STAIRS SOLUTION FOR CLICK FLOOR

The same floor throughout the house, in the rooms, in the kitchen and even on the stairs. Thanks to the Arbiton stair profile system, you can finish your stairs using panels from the Amaron and Liberal collections. Using the same click panels, you can finish both treads and risers. In this case, the panels are glued to the floor. The profiles have been designed in an

aesthetic and minimalistic way. Finishing the stairs with the use of Arbiton profiles is as complicated as laying the click floor. It is faster than standard solutions and does not require a specialized team. Profiles are sold in an universal 2m length, which allows you to cut them to the desired size and use in almost any investment.
